

DOE SECTION 75 EQUALITY OF OPPORTUNITY SCREENING ANALYSIS FORM

Section 1

Introduction

This form is intended to help you to consider whether a new policy (either internal or external) or legislation will require a full equality impact assessment (EQIA). Those policies identified as having significant implications for equality of opportunity must be subject to full EQIA.

The form will provide a record of the factors taken into account if a policy is screened out, or excluded for EQIA. It will provide a basis for consultation on the outcome of the screening exercise and will be referenced in the Annual Report to the Equality Commission. Copies of completed forms should be retained on file within business areas (**and a copy sent to the Equality Unit**) and reference should be made to the outcome of the screening exercise and subsequent consultation in any submission made to the Minister.

Background

The Legal Background

Under section 75 of the Northern Ireland Act 1998, the Department is required to have due regard to the need to promote equality of opportunity:

- between persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and
- between persons with dependants and persons without.

The main groups within each of the nine categories, highlighted above, are identified at Appendix 1.

In addition, without prejudice to its obligations above, the Department is also required, in carrying out its functions relating to Northern Ireland, to have regard to the desirability of promoting good relations between persons of different religious beliefs, political opinion or racial group.

Advice on Completion of the Screening Form

It is important that the screening form is completed carefully and thoughtfully. Your Divisional or Agency Equality Officer and the Department's Equality Unit in room 413A Clarence Court (ext 40855/40813) will be happy to assist with all aspects of the screening process and will help with the completion of the form, if required.

Further advice on the screening process can be accessed at Section 4 of the Equality Commission's Guide to the Statutory Duties.

Policies included for EQIA

If, after screening, it is decided that a policy will require a full EQIA, a decision will be required on the priority and timing of the assessment. The screening form should be noted accordingly, signed off and copied to the Equality Unit for inclusion in the EQIA programme.

Policies excluded for EQIA

If a decision is taken to screen out the policy or where there is ambiguity about the equality implication of the proposal, the screening form should be signed off by a senior officer responsible for the policy and a copy sent to the Equality Unit. Copies of all screening out forms will be placed on the Department's website.

Section 2 – Policy to be Screened

Definition of Policy

There have been some difficulties in defining what constitutes a policy in the context of Section 75. To be on the safe side it is recommended that you consider changes to or any new initiatives, proposals, schemes or programmes as policies. The policies covered in the Equality Scheme EQIA programme are a reasonable guide both to the nature of external departmental policies and the level at which they should be considered.

The revised Guidance from The Equality Commission emphasises that the Statutory duties apply to **internal** policies (relating to people who work for the organisation) as well as **external** policies (relating to those who are, or could be, served by the organisations).

It is important to remember that even if a full EQIA has been carried out in respect of an “overarching” policy or strategy, it will still be necessary for the policy maker to consider if a further EQIA needs to be carried out in respect of those policies cascading from the overarching strategy.

OFMDFM Guidance on Legislative Procedures (Primary and Subordinate) sets out clearly the stages at which equality of opportunity considerations should be taken into consideration in the development of legislation.

Overview of Policy Proposals

The aims and objectives of the policy must be clear and well defined. You must take into account any available data or evidence that will enable you to come to a decision on whether or not a policy may or may not have a differential impact on any of the S75 categories. Evidence may be qualitative and or quantitative and may include research or internal information and or experience in relation to service and customer monitoring exercises. Where appropriate, arrangements should be made to obtain any data necessary to assist screening. The Equality Unit or Central Statistics & Research Branch (Stephanie Harcourt ext 40878) are available to provide advice on data requirements.

2.1 Please insert below a brief description of the policy/legislation, including the title and all the main aims and objectives

Title **CONSULTATION PAPER ON AMENDMENTS TO THE RESTRICTION OF THE USE OF CERTAIN HAZARDOUS SUBSTANCES IN ELECTRICAL AND ELECTRONIC EQUIPMENT (ROHS) REGULATIONS (S.I. 2006 NO. 1463)**

Aims **The RoHS Directive (2002/95/EC), (transposed into UK legislation by the RoHS Regulations), aims to minimise the end of life environmental impact of electrical and electronic equipment (EEE) by restricting the level of six hazardous substances that may be used during its manufacture.**

The Directive applies primarily to those who manufacture EEE, but also to those who import these goods into the EU and those who re-brand equipment that has been produced by others.

The ROHS Directive deals with reserved matters and the Department for Business, Enterprise and Regulatory Reform is responsible for making the RoHS Regulations.

The purpose of laying new RoHS Regulations is both to:

- amend Schedule 2 to take account of any further Commission Decisions concerning exempt applications. BERR intends to take advantage of new provisions so as to refer to the RoHS Directive Annex “as amended from time-to-time”. This will remove the need for further amendments to the Annex of the Regulations every time new exempt applications of the restricted substances are approved, and bring the UK legislation simultaneously in line with the publication of Commission Decisions immediately; and**
- amend and clarify the enforcement provisions in the light of the experience of the UK RoHS Enforcement Authority’s first year of enforcing the RoHS Regulations. BERR proposes to amend the enforcement Regulations to make the regime a clearer and more effective means of securing compliance with producers’ obligations under the Regulations.**

It is essential that all the aims/objectives of the policy be clearly and fully defined.

2.2 On whom will the policies/legislation impact? Please specify

The stakeholders affected will be those who manufacture EEE, import these goods into the EU and those who re-brand equipment that has been produced by others.

2.3 Who is responsible for (a) devising and (b) delivering the policy, eg is it DOE, a Whitehall Department or EU? What is the relationship and have they considered this issue and any equality issues?

(a) BERR is responsible for devising the policy and Regulations.

(b) BERR is responsible for making the Regulations and the National Weights and Measures Laboratory is responsible for monitoring and enforcing them.

We maintain close contact with BERR to ensure local needs are taken into account. BERR has considered equality issues.

2.4 What linkages are there to other NI Departments/NDPBs in relation to this policy/legislation?

The National Weights and Measures Laboratory is responsible for monitoring and enforcing the legislation throughout the UK.

2.5 What data are available to facilitate the screening of this policy/legislation?

The current consultation paper, draft regulations and partial impact assessment.

2.6 Is additional data required to facilitate screening? If so, give details of how and when it will be obtained.

No

See Appendix 4 of the Equality Commission Practical Guidance on EQIA which provides a list of Sources of S75 data or speak to Central Statistics and Research

Branch (Stephanie Harcourt, ext 40878) or Equality Unit (Alex Boyle, ext 41194, or Una Downey, ext 40855).

Section 3 – Screening Analysis

In cases where there is no available quantitative evidence, you will need to take a pragmatic, common sense judgement as to whether the policy/legislation you are screening may have a particular/differential impact on any of the groups. Discussions with Equality Unit, Statistics Branch and organisations representing the Section 75 Groups will be important and helpful at this stage in obtaining qualitative evidence of impacts. Every effort should be made to ensure that assessments are evidence based.

The following criteria must be considered when screening.

3.1 Is there any indication or evidence of higher or lower participation or uptake by the following Section 75 groups?

	Yes	No
Religious belief		No
Political opinion		No
Racial group		No
Age		No
Marital status		No
Sexual orientation		No
Gender		No
Disability		No
Dependants		No

Please give details

3.2 Is there any indication or evidence that any of the following Section 75 groups have different needs, experiences, issues and priorities in relation to this policy issue?

	Yes	No
Religious belief		No
Political opinion		No
Racial group		No
Age		No
Marital status		No
Sexual orientation		No
Gender		No
Disability		No
Dependants		No

Please give details

3.3 Have consultations with the relevant representative organisations or individuals within any of the Section 75 categories, indicated that policies of this type create problems specific to them?

	Yes	No
Religious belief		No
Political opinion		No
Racial group		No
Age		No
Marital status		No
Sexual orientation		No
Gender		No
Disability		No
Dependants		No

Please give details of any consultations carried out, and any problems identified.

3.4 Is there an opportunity to better promote equality of opportunity or community relations by altering the policy, or by working with others, in Government, or in the larger community in the context of this policy?

No

Please give details

3.5 It may be that a policy/legislation has a differential impact on a certain Section 75 group, as the policy has been developed to address an existing or historical inequality or disadvantage. If this is the case, please give details below:

none

3.6 Please consider if there is any way of adapting the policy to promote better equality of opportunity or good relations.

Please give details

none

Section 4

EQIA Recommendation

You should consider carefully in this section whether full EQIA is necessary, particularly where answers to any questions in Section 3 are affirmative.

- 4.1 Full EQIA procedures should be carried out on policies considered to have significant implications for equality of opportunity. Please fill in the following grid in relation to the policy/legislation.

Prioritisation Factors	Significant Impact	Moderate Impact	Low Impact
Social Need.			yes
Effect on people's daily lives.			yes
Effect on economic, social and human rights.			yes
Strategic significance			yes
Financial significance			yes

Please give details

- 4.2 **In view of the considerations in Section 3 and 4 do you consider that this policy/legislation should be subject to a full EQIA? Please give reasons for your considerations. If you are unsure, please consult with affected groups and revisit the screening analysis accordingly. Yes/No/Unsure**

I do not think this should be subject to a full EQIA. There is no evidence to suggest that one S75 group will be affected more than another and the policy will have a low impact on the prioritisation factors listed in section 4.

4.3 If an EQIA is considered necessary please comment on the priority and timing in light of the factors in table 4.1.

n/a

4.4 If an EQIA is considered necessary is any data required to carry it out/ensure effective monitoring?

Please give details

n/a

Section 5

Endorsement

I can confirm that the proposed policy has been screened for equality of opportunity and good relations implications and has been screened out for equality impact assessment/requires a full equality impact assessment.

Signed: _____Janice Harvey_____

Agency/Division: _____EPD_____

Date: _____23 August 2007_____

PLEASE FORWARD A COPY OF THE COMPLETED FORM TO:

For Completion by Equality Unit

Date

Screening result recorded: _____

Placed on website: _____

Screening out completed: _____

Screening to be reconsidered: _____

Give reasons:

Agency/Division notified date: _____

Main Groups Relevant to the Section 75 Categories	
<u>Category</u>	<u>Main Groups</u>
Religious belief	Protestants; Catholics; people of non-Christian faiths; people of no religious belief
Political opinion	Unionists generally; Nationalists generally; members/supporters of any political party
Racial Group	White people; Chinese; Irish Travellers; Indians; Pakistanis; Bangladeshis; Black Africans; Black Caribbean people; people with mixed ethnic group
Gender	Men (including boys); women (including girls); trans-gendered people
Marital status	Married people; unmarried people; divorced or separated people; widowed people
Age	For most purposes, the main categories are: children under 18, people aged between 18-65, and people over 65. However, the definition of age groups will need to be sensitive to the policy under consideration
“Persons with a disability”	Disability is defined as: A physical or mental impairment, which has a substantial and long-term adverse effect on a person’s ability to carry out normal day-to-day activities as defined in Sections 1 and 2 and Schedules 1 and 2 of the Disability Discrimination Act 1995
“Persons with dependants”	Persons with personal responsibility for the care of a child; persons with personal responsibility for the care of a person with an incapacitating disability; persons with personal responsibility for the care of a dependant elderly person
Sexual orientation	Heterosexuals; bi-sexuals; gays; lesbians
