**NORTHERN IRELAND ENVIRONMENT AGENCY  
DEPARTMENT OF THE ENVIRONMENT**

**HISTORIC MONUMENTS OF NORTHERN IRELAND**

Northern Ireland Environment Agency: Built Heritage identifies, protects, records, investigates and presents Northern Ireland's heritage of archaeological and historic sites and monuments. The Department has statutory responsibility for the sites and monuments in these lists which are protected under the Historic Monuments and Archaeological Objects (NI) Order 1995. They are presented here in two parts, 1 & 2, and are listed in alphabetical order of townland name within each county.

**Part 1: Scheduled Historic Monuments at March 2008**

The schedule, of which this is a copy, is compiled and maintained by the Department and is available for public consultation at the Monuments and Buildings Record, Waterman House, 5-33 Hill Street, Belfast BT1 2LA. Additions and amendments are made throughout each year and this list supersedes all previously issued lists. To date there are 1,758 scheduled historic monuments.

It is an offence to damage or alter a scheduled site in any way. No works should be planned or undertaken at the sites listed here without first consulting with NIEA: Built Heritage and obtaining any necessary Scheduled Monument Consent. The unique reference number for each site is in the last column of each entry and should be quoted in all correspondence.

The work of scheduling is ongoing, and the fact that a site is not in this list does not diminish its unique archaeological importance. The Northern Ireland Sites and Monuments Record (NISMR) has information on some 16,038 sites of which this scheduled list is about 10% at present. There is a separate Industrial Heritage Record of 16,489 entries, a Maritime Record and a Historic Gardens Register, all of which may appear as references in the schedule from time to time. These Records may be consulted by the public through the Monuments and Buildings Record at Waterman House, 5-33 Hill Street, Belfast BT1 2LA. An electronic version of NISMR is available on [www.ni-environment.gov.uk](http://www.ni-environment.gov.uk).

Most scheduled monuments are privately owned and are not normally accessible to the public.

**Part 2: Monuments in State Care at March 2008**

This is a list of monuments in State Care. Some of these also have a scheduled zone associated with them and these are indicated with an asterisk. The last column in the list gives the unique reference number in the Northern Ireland Sites and Monuments record and should be quoted in all correspondence.

The 181 monuments in the list are in the care of Northern Ireland Environment Agency. It is an offence to damage or alter them in any way. Details of these monuments can be found in the 'Historic Monuments of Northern Ireland' (HMSO, 1987). Most are accessible to the public and details of opening arrangements, charges (where appropriate), school and other party bookings can be supplied on request. A few sites are not accessible to the public because they are awaiting repairs or without good access. Details of guidebooks, post-cards, slides and other publications can also be had on request.

## **CONFIDENTIALITY**

While the contents of these lists are not confidential, we would ask recipients to bear in mind the scope for their misuse. We would not want them used as pointers to sites for unlicensed treasure-hunting, which is strictly illegal under The Historic Monuments and Archaeological Objects (Northern Ireland) Order 1995. All searching for archaeological objects without a licence is an offence and it is also an offence to be in possession of a detection device on a protected site. Any third party enquiries about the location of archaeological sites should be referred to Northern Ireland Environment Agency unless you are completely satisfied as to the enquirer's motives.
