

Application Fees for Discharge Consent

January 2012 Version No.1

A summary of the changes to application fees is listed below (figures in brackets are the previous fees):

Full application fee remains	£906
Single domestic discharge to underground stratum	£100 (£115)
Single domestic discharge to waterway	£250 (£115)
Review of single domestic consent to underground stratum	£100 (£115)
Review of single domestic discharge to waterway	£250 (£115)
Sewage from non-domestic premises with daily discharge volume not exceeding 1 cubic metre	£250 (£115)
Site drainage, emergency overflow, review of any other consent where change is not significant	£115
Transfer of existing consent (change of name)	£50 (£31)

Where a treatment system serves more than one domestic dwelling, the application fee will be multiplied by the number of dwellings up to a maximum of £906, for example:

2 dwellings to underground = $2 \times £100 = £200$
3 dwellings to underground = $3 \times £100 = £300$
Up to max of £906

2 dwellings to waterway = $2 \times £250 = £500$
3 dwellings to waterway = $3 \times £250 = £750$
Up to max of £906
