

Table 1: Installations covered by the EU Greenhouse Gas Emissions Trading Scheme

Activities	Greenhouse Gases
<u>Energy activities</u> <ul style="list-style-type: none"> ▪ Combustion installations with a rated thermal input exceeding 20 MW (excepting hazardous or municipal waste installations) ▪ Mineral oil refineries ▪ Coke ovens 	Carbon dioxide Carbon dioxide Carbon dioxide
<u>Production & processing of ferrous metals</u> <ul style="list-style-type: none"> ▪ Metal ore (including sulphide ore) roasting or sintering installations ▪ Installations for the production of pig iron or steel (primary or secondary fusion) including continuous casting, with a capacity exceeding 2,5 tonnes per hour 	Carbon dioxide Carbon dioxide
<u>Mineral industry</u> <ul style="list-style-type: none"> ▪ Installations for the production of cement clinker in rotary kilns with a production capacity exceeding 500 tonnes per day or lime in rotary kilns with a production capacity exceeding 50 tonnes per day or in other furnaces with a production capacity exceeding 50 tonnes per day ▪ Installations for the manufacture of glass including glass fibre with a melting capacity exceeding 20 tonnes per day ▪ Installations for the manufacture of ceramic bricks by firing, in particular roofing tiles, bricks, refractory bricks, tiles, stoneware or porcelain, with a production capacity exceeding 75 tonnes per day, and/or with a kiln capacity exceeding 4 m³ and with a setting density per kiln exceeding 300kg/m³ 	Carbon dioxide Carbon dioxide Carbon dioxide
<u>Other activities</u> Industrial plants for the production of <ul style="list-style-type: none"> ▪ (a) pulp from timber or other fibrous materials ▪ (b) paper and board with a production capacity exceeding 20 tonnes per day 	Carbon dioxide Carbon dioxide

Note: The threshold values given above generally refer to production capacities or outputs. Where one operator carries out several activities falling under the same subheading in the same installation or on the same site, the capacities of such activities are added together.
