

DOE SECTION 75 EQUALITY OF OPPORTUNITY SCREENING ANALYSIS FORM

Section 1

Introduction

This form is intended to help you to consider whether a new policy (either internal or external) or legislation will require a full equality impact assessment (EQIA). Those policies identified as having significant implications for equality of opportunity must be subject to full EQIA.

The form will provide a record of the factors taken into account if a policy is screened out, or excluded for EQIA. It will provide a basis for consultation on the outcome of the screening exercise and will be referenced in the Annual Report to the Equality Commission. Copies of completed forms should be retained on file within business areas (**and a copy sent to the Equality Unit**) and reference should be made to the outcome of the screening exercise and subsequent consultation in any submission made to the Minister.

Background

The Legal Background

Under section 75 of the Northern Ireland Act 1998, the Department is required to have due regard to the need to promote equality of opportunity:

- between persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and
- between persons with dependants and persons without.

The main groups within each of the nine categories, highlighted above, are identified at Appendix 1.

In addition, without prejudice to its obligations above, the Department is also required, in carrying out its functions relating to Northern Ireland, to have regard to the desirability of promoting good relations between persons of different religious beliefs, political opinion or racial group.

Advice on Completion of the Screening Form

It is important that the screening form is completed carefully and thoughtfully. Your Divisional or Agency Equality Officer and the Department's Equality Unit in room 413A Clarence Court (ext 40855/40813) will be happy to assist with all aspects of the screening process and will help with the completion of the form, if required.

Further advice on the screening process can be accessed at Section 4 of the Equality Commission's Guide to the Statutory Duties.

Policies included for EQIA

If, after screening, it is decided that a policy will require a full EQIA, a decision will be required on the priority and timing of the assessment. The screening form should be noted accordingly, signed off and copied to the Equality Unit for inclusion in the EQIA programme.

Policies excluded for EQIA

If a decision is taken to screen out the policy or where there is ambiguity about the equality implication of the proposal, the screening form should be signed off by a senior officer responsible for the policy and a copy sent to the Equality Unit. Copies of all screening out forms will be placed on the Department's website.

Section 2 – Policy to be Screened

Definition of Policy

There have been some difficulties in defining what constitutes a policy in the context of Section 75. To be on the safe side it is recommended that you consider changes to or any new initiatives, proposals, schemes or programmes as policies. The policies covered in the Equality Scheme EQIA programme are a reasonable guide both to the nature of external departmental policies and the level at which they should be considered.

The revised Guidance from The Equality Commission emphasises that the Statutory duties apply to **internal** policies (relating to people who work for the organisation) as well as **external** policies (relating to those who are, or could be, served by the organisations).

It is important to remember that even if a full EQIA has been carried out in respect of an “overarching” policy or strategy, it will still be necessary for the policy maker to consider if a further EQIA needs to be carried out in respect of those policies cascading from the overarching strategy.

OFMDFM Guidance on Legislative Procedures (Primary and Subordinate) sets out clearly the stages at which equality of opportunity considerations should be taken into consideration in the development of legislation.

Overview of Policy Proposals

The aims and objectives of the policy must be clear and well defined. You must take into account any available data or evidence that will enable you to come to a decision on whether or not a policy may or may not have a differential impact on any of the S75 categories. Evidence may be qualitative and or quantitative and may include research or internal information and or experience in relation to service and customer monitoring exercises. Where appropriate, arrangements should be made to obtain any data necessary to assist screening. The Equality Unit or Central Statistics & Research

Branch (Stephanie Harcourt ext 40878) are available to provide advice on data requirements.

2.1 Please insert below a brief description of the policy/legislation, including the title and all the main aims and objectives

Title	[draft] Planning Policy Statement 18 Renewable Energy
Aims	<p>The primary aim of this Statement is to encourage and facilitate the provision and siting of renewable energy generating facilities in appropriate locations within the built and natural environment. The main objectives behind the policies are:</p> <ul style="list-style-type: none">• to contribute to the alleviation of climate change through reducing greenhouse gas emissions;• to contribute to the regional target of 12% of electricity generation by 2012, and 40% by 2025 from renewable energy sources;• to assist the diversification of energy supply and a more competitive energy market;• encourage economic growth and rural diversification associated with the development of an indigenous renewable energy industry;• to ensure that the environmental, landscape, visual and amenity impacts associated with renewable energy development are adequately addressed;• to ensure adequate protection of the Region's built and natural, and cultural heritage features;• to promote knowledge of and greater acceptance by the public of prospective renewable energy developments that are appropriately located;• to foster greater community involvement in renewable energy projects and encourage use of community benefits; and• promote greater application of the principles of Passive Solar Design in the design, siting and layout of new development

It is essential that all the aims/objectives of the policy be clearly and fully defined.

2.2 On whom will the policies/legislation impact? Please specify

The PPS will have direct implications for developers and applicants seeking planning permission for the development of renewable energy generating facilities. The provisions of the PPS will require all public sector development; large-scale urban development; and dwellings in the countryside, to demonstrate what consideration has been given to the principles of Passive Solar Design.

2.3 Who is responsible for (a) devising and (b) delivering the policy, eg is it DOE, a Whitehall Department or EU? What is the relationship and have they considered this issue and any equality issues?

(a) DOE Planning and Environmental Policy Group in consultation with Interdepartmental Working Group and representative NGOs

(b) The Policy will be implemented through the development control process by those with responsibility for making planning decisions [normally] the DOE Planning Service, but also the Planning Appeals Commission.

2.4 What linkages are there to other NI Departments/NDPBs in relation to this policy/legislation?

The draft Planning Policy Statement has been prepared within the strategic context of international and national commitments on climate change and the reduction of greenhouse gas emissions; and in consultation with Interdepartmental Working Group and representative NGOs.

2.5 What data are available to facilitate the screening of this policy/legislation?

There are a variety of information sources that can be drawn upon on the Section 75 groups from the Northern Ireland Statistics and carried Research Agency (NISRA) and the Planning Service database of

development decisions. No detailed analysis of this data has been
out at this stage as there are no anticipated effects on equality.

2.6 Is additional data required to facilitate screening? If so, give details of how and when it will be obtained.

This is not anticipated at this stage.

See Appendix 4 of the Equality Commission Practical Guidance on EQIA which provides a list of Sources of S75 data or speak to Central Statistics and Research Branch (Stephanie Harcourt, ext 40878) or Equality Unit (Alex Boyle, ext 41194, or Una Downey, ext 40855).

Section 3 – Screening Analysis

In cases where there is no available quantitative evidence, you will need to take a pragmatic, common sense judgement as to whether the policy/legislation you are screening may have a particular/differential impact on any of the groups. Discussions with Equality Unit, Statistics Branch and organisations representing the Section 75 Groups will be important and helpful at this stage in obtaining qualitative evidence of impacts. Every effort should be made to ensure that assessments are

The following criteria must be considered when screening.

3.1 Is there any indication or evidence of higher or lower participation or uptake by the following Section 75 groups?

	Yes	No
Religious belief		✓
Political opinion		✓
Racial group		✓
Age		✓
Marital status		✓
Sexual orientation		✓
Gender		✓
Disability		✓
Dependants		✓

Please give details

The Department considers there is no evidence that the draft Planning Policy Statement 18 Renewable Energy will have any differential impact on any of the groups within the Section 75 groups in relation to lower participation or take up. The Policy will be implemented through the development control process (see paragraph 2/3(b)).

3.2 Is there any indication or evidence that any of the following Section 75 groups have different needs, experiences, issues and priorities in relation to this policy issue?

	Yes	No
Religious belief		✓
Political opinion		✓
Racial group		✓
Age		✓
Marital status		✓
Sexual orientation		✓
Gender		✓
Disability		✓
Dependants		✓

Please give details

The Department considers there to be no indication or evidence that any of the Section 75 groups have different needs, experiences, issues and priorities in relation to draft Planning Policy Statement 18 Renewable energy. The Planning Policy Statement will however have direct implications for developers and applicants seeking planning particularly for proposals involving Renewable energy technology.

3.3 Have consultations with the relevant representative organisations or individuals within any of the Section 75 categories, indicated that policies of this type create problems specific to them?

	Yes	No
Religious belief		✓
Political opinion		✓
Racial group		✓
Age		✓
Marital status		✓
Sexual orientation		✓
Gender		✓
Disability		✓
Dependants		✓

Please give details of any consultations carried out, and any problems identified.

It has not been considered necessary to date to consult with any of the Section 75 groups on this matter. However, as part of the public consultation exercise the document will be forwarded to relevant key groups in the Department's Equality Scheme.

3.4 Is there an opportunity to better promote equality of opportunity or community relations by altering the policy, or by working with others, in Government, or in the larger community in the context of this policy?

No

Please give details

Not applicable.

3.5 It may be that a policy/legislation has a differential impact on a certain Section 75 group, as the policy has been developed to address an existing or historical inequality or disadvantage. If this is the case, please give details below:

Not Applicable.

3.6 Please consider if there is any way of adapting the policy to promote better equality of opportunity or good relations.

Please give details

Not applicable.

Section 4

EQIA Recommendation

You should consider carefully in this section whether full EQIA is necessary, particularly where answers to any questions in Section 3 are affirmative.

- 4.1 Full EQIA procedures should be carried out on policies considered to have significant implications for equality of opportunity. Please fill in the following grid in relation to the policy/legislation.

Prioritisation Factors	Significant Impact	Moderate Impact	Low Impact
Social Need.			✓
Effect on people's daily lives.			✓
Effect on economic, social and human rights.			✓
Strategic significance		✓	
Financial significance			✓

Please give details

The varied nature of renewable energy technologies presents the potential to develop an indigenous renewable energy industry and provides a range of opportunities to support the local economy. In addition to the policy objectives of contributing to the strategic regional target in alleviating climate change through reducing greenhouse gas emissions by achieving 40% of electricity generation by 2025 from renewable energy sources, the PPS will had indirect implications in assisting the diversification of the Regions energy supply and a more competitive market.

4.2 In view of the considerations in Section 3 and 4 do you consider that this policy/legislation should be subject to a full EQIA? Please give reasons for your considerations. If you are unsure, please consult with affected groups and revisit the screening analysis accordingly. Yes/No/Unsure

The Department has concluded Planning Policy Statement 18
Renewable Energy does not have a significant adverse impact on any
Section 75 group.

4.3 If an EQIA is considered necessary please comment on the priority and timing in light of the factors in table 4.1.

Not applicable.

4.4 If an EQIA is considered necessary is any data required to carry it out/ensure effective monitoring?

Please give details

Not applicable.

Section 5

Endorsement

I can confirm that the proposed policy has been screened for equality of opportunity and good relations implications and has been screened out for equality impact assessment/requires a full equality impact assessment.
