

DOE SECTION 75 EQUALITY OF OPPORTUNITY SCREENING ANALYSIS FORM

Section 1

Introduction

This form is intended to help you to consider whether a new policy (either internal or external) or legislation will require a full equality impact assessment (EQIA). Those policies identified as having significant implications for equality of opportunity must be subject to full EQIA.

The form will provide a record of the factors taken into account if a policy is screened out, or excluded for EQIA. It will provide a basis for consultation on the outcome of the screening exercise and will be referenced in the Annual Report to the Equality Commission. Copies of completed forms should be retained on file within business areas **(and a copy sent to the Equality Unit)** and reference should be made to the outcome of the screening exercise and subsequent consultation in any submission made to the Minister.

Background

The Legal Background

Under section 75 of the Northern Ireland Act 1998, the Department is required to have due regard to the need to promote equality of opportunity:

- between persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and
- between persons with dependants and persons without.

The main groups within each of the nine categories, highlighted above, are identified at Appendix 1.

In addition, without prejudice to its obligations above, the Department is also required, in carrying out its functions relating to Northern Ireland, to have regard to the desirability of promoting good relations between persons of different religious beliefs, political opinion or racial group.

Policies included for EQIA

If, after screening, it is decided that a policy will require a full EQIA, a decision will be required on the priority and timing of the assessment. The screening form should be noted accordingly, signed off and copied to the Equality Unit for inclusion in the EQIA programme.

Policies excluded for EQIA

If a decision is taken to screen out the policy or where there is ambiguity about the equality implication of the proposal, the screening form should be signed off by a senior officer responsible for the policy and a copy sent to the Equality Unit. Copies of all screening out forms will be placed on the Department's website.

Section 2 – Policy to be Screened

Definition of Policy

There have been some difficulties in defining what constitutes a policy in the context of Section 75. To be on the safe side it is recommended that you consider changes to or any new initiatives, proposals, schemes or programmes as policies. The policies covered in the Equality Scheme EQIA programme are a reasonable guide both to the nature of external departmental policies and the level at which they should be considered.

The revised Guidance from The Equality Commission emphasises that the Statutory duties apply to **internal** policies (relating to people who work for the organisation) as well as **external** policies (relating to those who are, or could be, served by the organisations).

It is important to remember that even if a full EQIA has been carried out in respect of an "overarching" policy or strategy, it will still be necessary for the policy maker to consider if a further EQIA needs to be carried out in respect of those policies cascading from the overarching strategy.

OFMDFM Guidance on Legislative Procedures (Primary and Subordinate) sets out clearly the stages at which equality of opportunity considerations should be taken into consideration in the development of legislation.

Overview of Policy Proposals

The aims and objectives of the policy must be clear and well defined. You must take into account any available data or evidence that will enable you to come to a decision on whether or not a policy may or may not have a differential impact on any of the S75 categories. Evidence may be qualitative and or quantitative and may include research or internal information and or experience in relation to service and customer monitoring exercises. Where appropriate, arrangements should be made to obtain any data necessary to assist screening. The Equality Unit or Central Statistics & Research Branch (Michael Bennett ext 40916) are available to provide advice on data requirements.

2.1 Please insert below a brief description of the policy/legislation, including the title and all the main aims and objectives

Title **The DOE Organisational Restructuring Redeployment of Surplus Staff in the Non P&T Grades**

Aims **Background**

The Department is currently facing a very difficult set of challenges in relation to its financial position stemming from two key sources:

(i) the significant fall off in planning receipts over the past 18 months that has accompanied the economic downturn

(ii) the implications for the Department of the decisions taken by the executive to manage the overall public expenditure position in Northern Ireland for the 2010/11 and 2011/12 financial years.

It is also expected that the overall public expenditure position will continue to become more difficult over the coming few years as public sector finances tighten in the aftermath of the recession and the measures taken by the government to stabilise the financial institutions.

A review of Corporate Services functions was carried out throughout the Department and its Agencies and it was established that there were some 414 people carrying out corporate services roles at a cost of some £11.8 million per annum, or 14% of administrative costs of the Department. It also found that there is the potential to enhance corporate governance of the department and thereby achieve significant improvements in the overall effectiveness of the Department by bringing corporate services together in a streamlined core which can support the board in terms of organisational change and business improvement. Recommendations for streamlining corporate services functions were accepted with a reduction target of savings of at least 25% or £2.9 million per year.

This scheme provides guidance on how DOE will manage the redeployment of staff who become surplus as a result of (a) the Review of Corporate Services and (b) the Further Review of Planning Service Costs. It covers the selection process and the redeployment principles. It will proceed in conjunction with Section 2.6 of the HR Handbook on Redeployment. It applies only to General Service staff as P&T Planners are covered through a special regrading exercise.

It is essential that all the aims/objectives of the policy be clearly and fully defined.

2.2 On whom will the policies/legislation impact? Please specify

Those General Service staff affected by the Review of Corporate Services and the "Further Review of Planning Service Operating Costs".

2.3 Who is responsible for (a) devising and (b) delivering the policy, eg is it DOE, a Whitehall Department or EU? What is the relationship and have they considered this issue and any equality issues?

2.5 What data are available to facilitate the screening of this policy/legislation?

NISRA has been able to provide the following Section 75 profile data:
